Re: West Bastrop Village Municipal Utility District of Bastrop County

Dear Ms. Schanhals:

This letter is in response to your request for certain worksheets required by Section 106 of Senate Bill 2. Section 106 requires the submission of worksheets used by a taxing unit to calculate its effective tax rate and its rollback tax rate. Water districts, such as the District, are not subject to the requirements in the Tax Code requiring the calculation of an effective and rollback tax rate. Rather, the District is subject to Section 49.326 of the Texas Water Code. Neither the Water Code nor any other statute applicable to the District requires it to calculate its effective tax rate. And, the District is only required to calculate its rollback tax rate if its proposed tax rate for the following tax year increases the taxes on the average residence homestead by more than eight percent, and a petition is filed by qualified voters of the District requiring an election be held to determine whether to reduce the District's operation and maintenance tax rate to the rollback tax rate under Section 49.326(d) of the Texas Water Code. The District was not required to calculate an effective tax rate or rollback tax rate.

Enclosed are copies of the District's Notices of Public Hearing on Tax Rate for the tax years 2017 through 2019.

We request that you post only the enclosed Notices on your website.
